

Still Waters Covid-19 Safety Information

In light of the current pandemic, we have updated all of our office sanitation/disinfection procedures (see below for summary detail). These measures are in accordance with the CDC guidelines as well as the guidelines of our professional associations. We will be pre-screening all patients before appointments. Additionally, everyone in the office will wear masks and we'll be staggering appointments so that patients do not overlap in the office common areas. Plenty of time will be allowed for a thorough disinfection/sanitization in between sessions.

Additionally, patients can prepay paperlessly for acupuncture and massage sessions here:

http://www.stillwaterstherapies.com/paypal_dan.marnie.rates.html

Wishing you all peace and good health!

Marnie and Dan

Safety and Disinfection Procedures:

Before appointment clients will be pre-screened for symptoms of COVID 19.

A mask will be required to enter the office and a mask will be worn by all practitioners.

Appointments will be staggered and check out/scheduling will occur in the treatment room to minimize traffic in the office common areas.

Each client will have a fresh set of table linens.

Treatment rooms will be disinfected/sanitized before each patient enters.

Waiting room has been arranged to allow for a seating distance of 6 feet.

All highly touched items (magazines, etc.) have been removed from the waiting room/treatment rooms.

All common areas (restroom/waiting room) will be disinfected/sanitized hourly.
